Product description

Self-adhesive lead foil 0.5 mm for X-ray shielding

Self-adhesive lead foil with a Pb layer of 0.5 mm is designed for quick installation on doors, walls, technical housings and shielding details. The adhesive backing helps position the material and reduces installation time.

The product is used in X-ray rooms, diagnostic areas, technical shielding and sealing points where a flexible lead layer is required.

- lead foil with adhesive backing;
- application: X-ray shielding, sealing and technical protection;
- format: 1 m2;
- recommended for professional radiation protection projects.
